

Communication the lifeblood of every society has undergone tremendous advances over the centuries. The ingenuity of man in devising means to communicate over long distances is a tribute to man's imagination. Dogs, Cats, Camels and

reindeer were used at various times until technology improved to the point where steamships, railroads and airplanes aided communication. The fascinating evolution of postal systems is described with images in
**THE HISTORY OF POSTAL SERVICES
FROM 6,000 YEARS TO THE PRESENT**
